

We build only the finest with pride ...

... for those who want only the finest.

## Chair Stacking and Transportation:

- Chairs should be stacked, as shown in illustration below, with the legs of the top chair placed directly in front of the legs of the chair below.
- Transportation of stacked chairs is only recommended with the use of a HT-22, HT-23 Heavy Duty Handtruck, HT-24 for KL Series or chairs equipped with Finger Grips, or a CD-9/AM Chair Dolly, all of which are available from Gasser Chair Company.

CD-9/AM

HT-24 Hand Truck

Recommended for use with KL Series chairs and all stackable chairs with finger grips.
